

3/28/20

Hello Sublette County, this is Albert Sommers reporting to you from Sublette County, during a difficult time for our nation. We face a serious pandemic; please remember to follow the Governor's orders and the recommendations from our local health professionals. Stay home, keep social distancing. This unprecedented shutdown of our state and national economy is having a huge impact on employers and employees. Keep your chins up. The sun continues to rise each day, and we will get through this challenge, together as neighbors.

Legislative leadership, of which I am a member, is working with the Governor on developing strategies and options to help Wyoming citizens, healthcare providers and businesses, including how best the legislative branch can help.

The Federal Government passed an enormous aid package in the last few days, and I would like to thank Wyoming's congressional delegation for its hard work. Our state leaders, both executive and legislative, will be working together diligently in the next few weeks to understand how Wyoming citizens, local governments, and health care providers may benefit to the greatest extent possible from the federal aid bill, which is extensive, with many moving parts. The executive and legislative branches will also be working together to deploy our existing resources.

I can be reached with questions, problems, or concerns at albert@albertsommers.com

Thanks, stay safe, stay strong.

Albert
